Nav Bar - Shop Page

1. Logo - on click transports user to the top of main page
2. Return button - transports user to the main page (same as the logo)
3. Cart button - transports user to the cart items subsite

Nav Bar - Cart Page

Buttons are the same as the previous ones, excepts there is a SHOP button, which transports user to the shop subsite.

Weather Conditions Search Bar

Check weather for other City!

Enter city name

To get the weather conditions of a City, user needs to type a City proper City name.

When the City name is correct, user will get the data for that City.
eg. for City Kielce

Check weather for other City!

Enter city name

Kielce

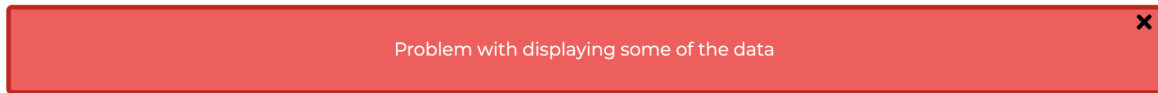

Sunny
10.4°C

Wind direction: W
Wind speed: 18.8 km/h

Weather is terrible for skiing

Weather Section Error

When you see this error:

The reasons for it might be:

1. Problems with fetching external weather data.
2. User gave **wrong** City name in the weather search bar.

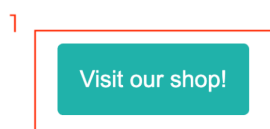

When its not the case, contact our support: ski-resort@support.com
